SUBMISSION GUIDELINES FOR AUTHORS

Format

All manuscripts should be submitted in their final form and should conform to the following guidelines:

- Typed, double spaced, pages numbered, with 1.5 inch (3.75 cm) margins.
- Title page must include the names, titles, degrees, affiliations, and correspondence information for all authors.
- Tables and figures should be printed on separate pages and should be numbered in the order in which they are referred to in the text, e.g. (table 1) (figure 1).
- An acronym used repeatedly should be cited in its entirety along with the abbreviation in parentheses on first reference: e.g.: Centers for Disease Control and Prevention (CDC). All subsequent citations should use only the abbreviation.

References

- The journal follows the *Chicago Manual of Style* in using endnotes rather than footnotes. Endnotes should be listed at the end of each article in sequential order.
- Place endnote number at the end of the sentence in which it appears.
- Assign a separate number to each endnote throughout the text, even when referring back to a source previously cited.
- Use "Ibid." to save space when referring to a single work (the only work cited) in the immediately preceding endnote.

Submission

- Three paper copies of manuscript.
- One copy of manuscript on diskette (Mac or PC format) preferably in MS Word 5.0-6.0.
- For Articles include an abstract of no more than 150 words.
